## INTRODUCTION

In 1984, the City of Richmond established a tax increment authority district under the State of Michigan Public Act 450 (1980) entitled the Tax Increment Financial Authority Act. Through the operation of this Tax Increment Financing Authority (TIFA), the city worked to slow declining property values, incentivize growth and stimulate a recessed local economy. Over the past thirty years, Richmond's TIFA has continued this trend by encouraging economic development, supporting neighborhood revitalization and facilitating efforts of community development.

A series of development and tax increment financing plans were implemented to guide future development within the district. These overarching policy documents have allowed TIFA to facilitate community, economic and physical development initiatives. Leveraging state-mandated procedures, the City of Richmond has created, implemented and maintained these plans in order to access tax increment financing. These funds have been carefully reinvested into the City, supporting capital improvements, local business efforts and community-wide events. In order to maximize eligibility for future funding, the City of Richmond must update its development and tax increment financing plans.

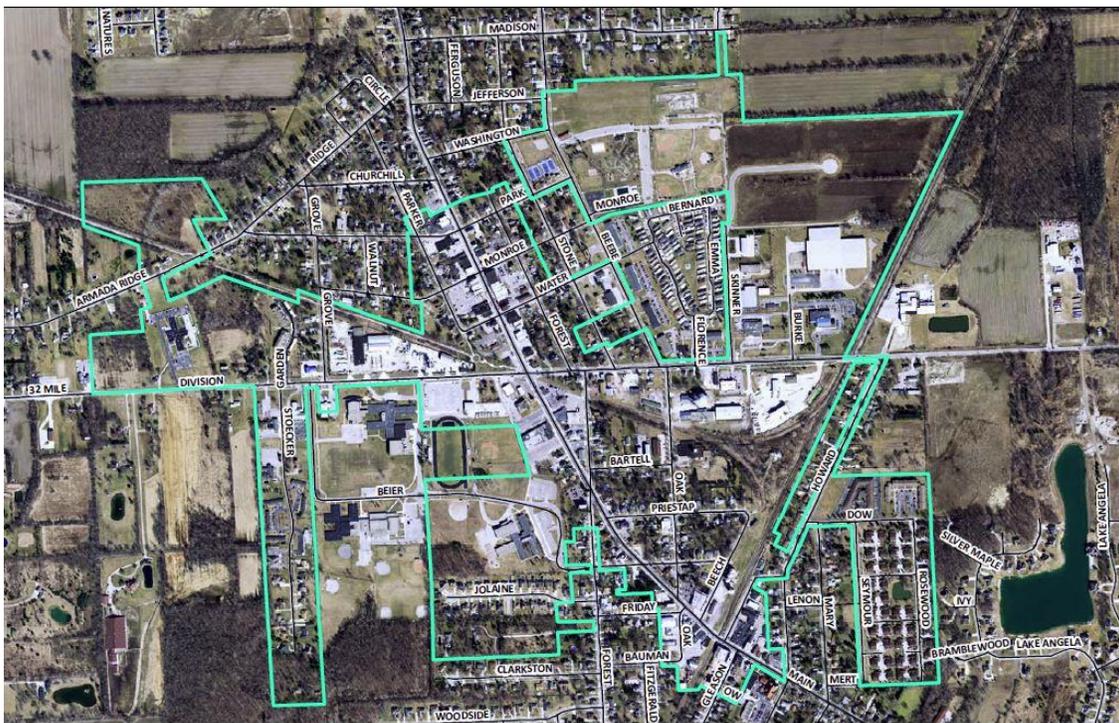

In cooperation with the Macomb County Department of Planning and Economic Development (MCPED), the City of Richmond seeks to update its TIFA development and financing plans. This exercise will provide the city with an opportunity to integrate longstanding community ideals with innovative planning and economic development strategies. As new development, investment and administrative opportunities arise, it is imperative that the city is prepared to leverage the full support of TIFA and take advantage of these prospects. Under the direction of the TIFA Board, the city will review current planning documents, analyze existing conditions, engage the community and consult experts to create new policies and projects for the authority district.

The following development and tax increment financing plans are the next step in advancing the City of Richmond TIFA. Following the state's legislative guidelines, this plan will create a dynamic set of goals, objectives and action items that aim to continue the success of the TIFA District. With the help of the districts vested stakeholders, community leaders, local administrators and the general public, this community exercise aspires to solidify the path of TIFA for the future. Ultimately, the development and tax increment financing plans lay the foundation for decade's worth of progress and solidify prosperity for the City of Richmond TIFA.

## TIFA FOUNDATION AND PURPOSE

The City of Richmond is located in northeast Macomb County. Straddling both Macomb and St. Clair counties, the City was first incorporated as a Village in 1879 from portions of both Richmond and Lenox Townships. The voters approved a City Charter in 1966 switching the form of government from Village to City. Since its incorporation, the City of Richmond has positioned itself as a community and economic development hub in northern Macomb County. Surrounded by predominately rural townships with low density development, the City has utilized its small-town atmosphere and compact scale to attract residents, businesses and visitors. In the early 1980's, the City sought to strengthen its community and economic growth through the establishment of a Tax Increment Financing Authority.

In August of 1984, the City of Richmond employed State of Michigan Public Act 450 (1980), titled the Tax Increment Authority Act, to establish a tax increment authority district. The purpose of this legislation was to assist communities in stabilizing and increasing their local tax base through the promotion of economic development and activity. Richmond was experiencing modest growth, and sought to stimulate further community development by establishing an authority district. This legislation was a trusted resource that could link the city's economic instability, to strategic plans and initiatives that would lead to additional interest and development.

*(See Appendix A for a TIFA Boundary Map and Appendix B for a listing of Parcels within TIFA)*

The City of Richmond TIFA District is anchored along Main Street and Division Road. The district was created to encompass a variety of land uses and development nodes. The City of Richmond TIFA District encapsulates both north and south Main Street commercial areas, the residential neighborhoods adjacent to Main Street, the industrial areas near Skinner Drive and Division, the Richmond Community Schools complex, and the recreational nodes at the Macomb Orchard Trailhead Park and Beebe Park.

With the establishment of this dynamic district, the City of Richmond is granted a broad spectrum of powers. TIFA has worked alongside local officials and community stakeholders to foster growth and activity. The legislation has provided the City of Richmond with a framework to draft development and tax increment finance plans which have led to a considerable amount of investment in the City. These development and tax increment financing plans have facilitated the use of tax increment financing, which allows the City to secure state equalized value (SEV) for the district. As development and investment has occurred, the City has been able to capture increases in SEV and finance numerous public improvements. Past TIFA accomplishments include:

- Main Street infrastructure and streetscape improvements
- Commercial building façade program
- Richmond Community Schools facility improvements
- City Hall renovations/relocation
- Residential neighborhood infrastructure improvements
- City of Richmond Police Post
- Downtown parking enhancements
- Fire Hall improvements
- Skinner Drive industrial area infrastructure improvements
- Division Road improvements
- Beebe Park enhancements

These projects illustrate several resounding successes for the City of Richmond TIFA. For nearly three decades, TIFA has invested in local initiatives that have had profound economic and community impacts. Through partnerships with the local business community, investors, community organizations and city administrators, TIFA has been instrumental in administering a number of transformative initiatives.

## **TIFA ADVANTAGE**

With a substantial variety of land uses in a condensed area, the City of Richmond TIFA is positioned to be a catalyst for growth and prosperity in northern Macomb County. The City of

Richmond TIFA possesses a number of characteristics that make it appealing to residents, visitors and businesses. Some of these advantages include:

- **TIFA’s Sense of Place** – The City of Richmond TIFA has a unique character and identity. As a vibrant hub of community and economic activity, TIFA offers numerous amenities. Richmond TIFA possesses a vibrant lifestyle that is linked to strong social and professional networks, a safe, efficient and accessible multi-modal transportation network, and active community resources. These characteristics have allowed TIFA to create an environment that is a desirable place to live, work and play.
- **TIFA’s Economic Advantage** – The City of Richmond TIFA provides a distinct economic advantage. With more than 100 businesses employing nearly 600 individuals, Richmond TIFA has cultivated an inviting business-friendly atmosphere. This vibrant business community is diverse, encapsulating commercial and service businesses along Main Street to large-scale industrial operations. With available storefronts and acres of industrial-zoned land, growth opportunities are present.
- **TIFA’s Residential Core** – From historic single-family estates to affordable multi-family housing complexes, the City of Richmond TIFA possesses a diverse mix of residential options. This array of single-family, multi-family and mixed-use residential options provides TIFA with housing opportunities that cater to the needs of existing and potential residents.
- **TIFA’s Service Network** – The City of Richmond TIFA has a dynamic network of community service providers. The TIFA District is supported by the City’s municipal services (ranging from public works to public safety), local business associations (such as the Richmond Area Chamber of Commerce), service organizations and faith-based institutions. These service networks provide TIFA stakeholders with multiple opportunities to engage potential customers and to promote the thriving community that Richmond has become.

These community benefits illustrate the City of Richmond TIFA’s position as a preferred destination to grow a business or raise a family. TIFA possesses the necessary infrastructure, amenities and service networks needed to support business activity and neighborhood vitality. Over the past three decades, the district, along with its expansive stakeholder network, has provided the City of Richmond with many opportunities for community advancement. This instrumental municipal tool has strengthened the community and given city administrators the ability to develop creative and resourceful initiatives. This document builds upon these past successes. With the help of this document, the City of Richmond is able to explore what future opportunities for the district. The following plan will help the community imagine what TIFA can become, and establish the structure to implement the City’s vision.

## TIFA'S VISION

In order to better unify the strategic development efforts within the TIFA District, the City of Richmond facilitated a series of community lead input sessions. Throughout the development of this plan, residents, businesses, community organizations, administrators and elected officials engaged in an ongoing discussion about the future of TIFA. Ultimately, the community focused on creating a cluster of high-quality places, businesses and experiences within the City of Richmond TIFA. Some of the overarching themes expressed during the visioning sessions were:

- **Community and economic development** – TIFA must continue to work as a driving force for community and economic development initiatives throughout the City of Richmond. Working closely with City officials, TIFA must develop plans and strategies which support the greater community.
- **Investing in the district/community** – TIFA plays a pivotal role in strategic reinvestment within the district by targeting prime redevelopment/development opportunities.
- **Alternative funding/revenue source** – Richmond TIFA provides the City with alternative sources to finance programs, projects and initiatives.
- **Business retention, expansion and attraction** – Richmond TIFA must cultivate a productive and purposeful relationship with the local business community.
- **Consensus building and community outreach** – TIFA must continue to engage and assist the diverse network of stakeholders and advocates that are invested in the future success of the district. Educating the public about the role TIFA plays can strengthen support for future projects.
- **Infrastructure Improvements** – Richmond TIFA can orchestrate major transportation and utility projects that lay the foundation for additional investment in the City.
- **Bricks and Mortar** – TIFA should continue its success in facilitating the development of public facilities, private business and prominent structures.
- **Maintain community character and heritage** – TIFA should continue to invest in projects and activities that will foster and sustain the City's unique character.
- **Branding, marketing, promotions and events** – Richmond TIFA must expand branding, marketing, promotions and events to help generate positive momentum for the City.

These community driven themes illustrate the necessity for TIFA's continued work. In due course, the Richmond TIFA can continue to reinforce the existing foundation, and reinvigorate the City. The end goal is to create an inviting and safe physical environment that attracts new business and investment opportunities throughout TIFA. In order to better assist the City in prioritizing initiatives, the following vision will be the driving force behind TIFA's efforts:

**The City of Richmond TIFA is a dynamic, multi-use district, which will unite residents, businesses and stakeholders in the pursuit of transformative community-based initiatives.**

## TIFA ADMINISTRATIVE STRUCTURE

The functions of the City of Richmond TIFA are administered through a network of elected officials, boards, committees, administrators, businesses and volunteers. Over the past three decades, TIFA has leveraged state legislated mandates, local ordinances, and informal community outreach to operate in a transparent and engaging environment. TIFA and its network of stakeholders must continue to cultivate an active and receptive administrative structure. To build upon its past successes, TIFA has utilized this community exercise to reconnect with partnering agencies. By embracing the greater community, TIFA has been able to share opportunities, and solve common challenges. TIFA leadership is committed to remaining a driving force for communitywide investment and prosperity. The following section will highlight the roles and responsibilities of TIFA's administrative network.

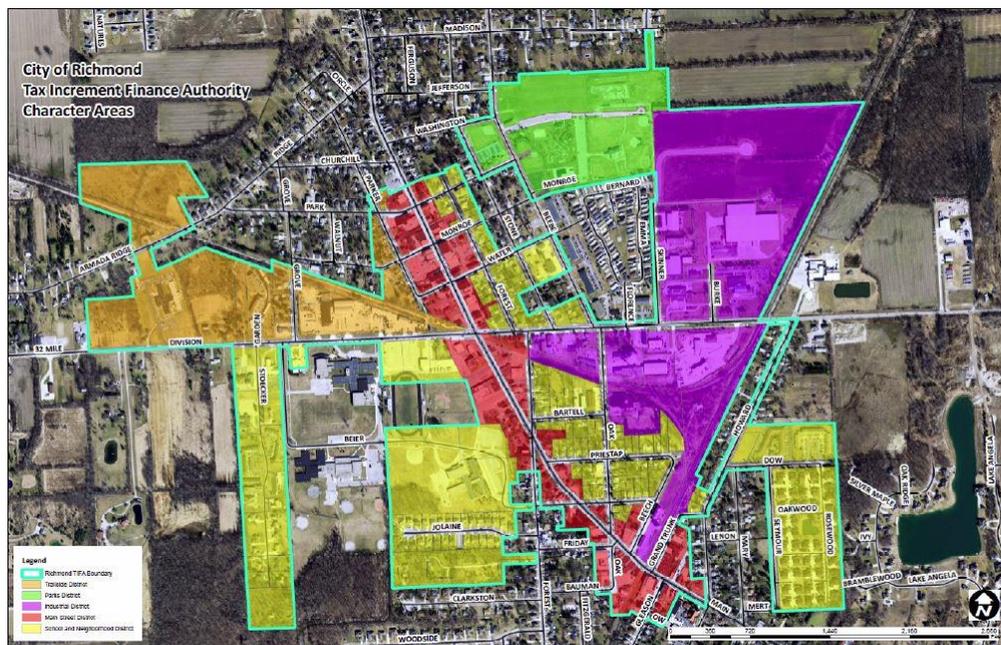

TIFA's foundation is guided and supervised by the Richmond City Council. Following the prescriptive elements of the Tax Increment Financing Authority Act, the City created an authority board to manage TIFA operations. The City of Richmond TIFA Board is a seven member group appointed by the Mayor and approved by the City Council. The Board operates as an instrumentality of the City of Richmond, working alongside City Council and other community boards, including the Economic Development Corporation and the Historical Society. The TIFA Board coordinates monthly public meetings to execute the business of the District. From preparing financial statements to planning capital improvements, this citizen-driven board sets TIFA's priorities and acts as a sounding board for the greater community.

Another integral component of the TIFA's operations is the City's administrative staff. The city manager and planner are two primary administrative elements that support TIFA functions. The City Manager's office directly links TIFA to the City's administrative channels. From budget oversight to project coordination, the City Manager is appointed by the TIFA Board to serve as TIFA Executive Director, ensuring that TIFA business is fully integrated into the City's overarching strategies. In planning and community development, TIFA is supported by the City's planning staff. This vital connection allows TIFA to strategically plan and synchronize programs and initiatives. By connecting TIFA with the City's planning functions, Richmond has ensured that the community is optimizing the impact of their investments. As TIFA has undertaken capital improvement projects and facilitated business support services, the City's planning staff has been able to position TIFA's presence to best support the greater community. Whether it is developing comprehensive planning documents or administering façade enhancement programs, the City's planning staff is an integral component of TIFA's management structure. The City Clerk and City Treasurer are also integrated into the administrative support to the City or Richmond TIFA.

The future success of TIFA rests upon a strong and collaborative relationship with the City. By working together, TIFA and the City can effectively implement new programs and services. Ultimately, TIFA is a municipal investment tool which allows the City to purposefully invest in the district. Throughout the lifespan of this document, TIFA will continue to work alongside the City's boards and administrators. By strengthening municipal ties TIFA will be able to initiate projects that will have a positive influence on the greater community. Through continuous dialogue and collective management TIFA will uphold its administrative integrity and stance as an essential community partner.

## TIFA CHARACTER AREAS

The City of Richmond TIFA possesses a cluster of dynamic uses. From a historic Main Street to regional non-motorized trails, there are incredible assets throughout TIFA. These vibrant activity nodes make TIFA a unique destination. In order to help develop a viable action plan for TIFA, the City created five TIFA character areas. The TIFA character areas are generalized geographic areas, which are classified by distinctive characteristics and physical elements. The five TIFA character areas are as follows: Main Street District; Industrial District; Trailside District; Recreation District; and the School and Neighborhood District. These character areas will assist the City in targeting community and economic development initiatives. The following section will highlight each of the five TIFA character areas providing a description of each area and cataloguing strengths, weaknesses, challenges, opportunities, and potential projects/initiatives.

*(See Appendix D for a larger Character Map)*

## **Main Street Area**

Main Street is the heart of Richmond's TIFA. This roadway, and adjoining properties, possess a distinct character that illustrates the true personality of the City of Richmond. Main Street is a hub of social activity, an anchor for entrepreneurial vitality, and a source of community pride. This nearly mile-long stretch of M-19 is occupied by a diverse mix of businesses and community uses. Main Street is home to multi-story mixed-use buildings, which provide residents and visitors with a traditional downtown environment to access local restaurants, shops and professional services. The visual appeal of Main Street is enhanced by an assorted mix of building types that display various architectural styling. From Victorian style estate homes to historic auditorium space, Main Street is both visually intriguing and user friendly.

The heart of Richmond's central business district is situated along the city's primary arterial, Main Street. This dynamic and lively thoroughfare offers a variety of distinct uses. Mixed-use development ensures that Main Street remains healthy and vibrant by encouraging residential housing, retail storefronts, office space and commercial uses to cooperatively coexist. Those within the TIFA district can enjoy greater functionality, connectivity and sustainability. The Main Street area is home to a unique array of multi-use buildings, many of which have historic significance. These notable community structures includes portions of the St. Augustine Church campus, First United Church of Christ, a historic one room school house, a fire hall and a blacksmith shop. TIFA can leverage the benefits of integrating diverse historic buildings with newer developments by creating a dynamic and magnetic district exclusive to the City of Richmond. The properties within Main Street's TIFA come together to form an unmistakable district that evokes an emotional response from its residents and visitors. This emotion is often tied to a sense of place, or a combination of characteristics that make a place special and memorable. Maintaining a unique sense of place is crucial to the long-range vitality of Richmond's TIFA: this sense of place encourages residential activity, fosters economic development, and creates and strengthens connections between people and the places they share.

The Main Street District does have its weaknesses including occupancy rates, traffic flow, a lack of pedestrian amenities and no cohesive character. Main Street showcases some of Richmond's premiere amenities: quaint retail storefronts, restaurants, theaters, historical landmarks and commercial business. The city's major thoroughfare houses a substantial amount of mixed-use property, some of which remains vacant. To combat these vacancies, TIFA can incentivize commercial activity by stimulating economic growth and increasing local property values. Higher occupancy rates on Main Street ultimately translate into a more dynamic, lively and profitable arterial for the City of Richmond.

Efficiently managing the path and flow of vehicles through a designated area is perhaps one of the biggest indications that a downtown is welcoming to both drivers and pedestrians. Improving the performance of these shared spaces allows for a much more inviting, accessible and safe experience for the City's residents and visitors. Benefits of these improvements include a reduction in congestion and pollution, increased pedestrian activity, alleviation of heavy traffic flow and substantially lower infrastructure costs. TIFA should encourage local government officials to emphasize efficient traffic routes throughout the city's core.

The smallest details often determine whether a person feels comfortable in a place. These details, aptly referred to as principles of good urban design, include balance, innovation, simplicity, aesthetic focus and sustainability. Encouraging people to visit a place ultimately comes down to these details. TIFA should encourage the allocation of municipal funds to ensure that Richmond's downtown remains a regional destination. Amenities that encourage pedestrian activity and create a unique sense of place include benches, landscaping, crosswalks, pedestrian malls and squares, bike lanes, awnings and outdoor seating for cafes and restaurants.

The overall character of a downtown can be as important as the elements that comprise it. Richmond's TIFA should encourage strategic zoning practices to differentiate a given zones from its surrounding structures. It should also facilitate the promotion of a unified vision and brand to its residents and visitors: those who know and love the city will find it reinforces their values, while those that are new to Richmond will be captivated by its appeal. TIFA should also strive to help implement a variation of form-based code in order to unify business facades in its downtown, keeping it in character with its turn-of-the-century style. It may also find it prudent to encourage local businesses to keep within this style.

However, this district has plenty of opportunities for improvement, and will be the focus of the TIFA funds over the next 5 years. As the heart of the city's central business district, Main Street serves as not only a connective node, but as a destination. In its current state, Main Street provides the City of Richmond with substantial opportunity for future growth and development. TIFA should leverage this potential to help spur positive change throughout the city. Richmond has the opportunity, in conjunction with its TIFA, to increase overall commercial occupancy, incentivize residential occupancy, improve the aesthetic uniformity of its core and heighten the quality of its municipal services. As the city progresses, it is crucial that TIFA keep lines of communication open and actively address the concerns of its residents.

### ***Industrial Area***

The eastern portion of the City of Richmond TIFA is characterized by industrial uses. This area has developed into a cluster of industrial activity and investment because of the presence of an

active rail corridor and its close proximity to I-94. Occupied by production establishments, warehousing facilities, and agricultural processing operations, TIFA's industrial area has grown into a major employment center for the community. As TIFA continues to refine its operations it is imperative that this industrial node is allowed to grow and prosper.

The inclusion of industrial businesses within the city's TIFA district holds distinct advantages for Richmond. Primarily, this inclusion leads to an increase in tax revenue. Because industrial businesses are often much larger in size than commercial retail spaces, TIFA can capture a higher amount of property tax to be used for physical improvements and business attraction, among many others. Industrial businesses in Richmond hold a great deal of potential for spurring positive change within the city. Primarily, industrial businesses have the power to collaborate with other local retail, commercial and industrial businesses. Collaborative partnerships ultimately contribute to raising tax revenue for the city, encouraging unique and productive business practices and making the region more attractive to both residents and visitors. TIFA should encourage collaborations between the businesses that fall within its boundaries.

The City of Richmond has over 30 acres of land adjacent to municipal services and roads. This is ideal for both the attraction of new industrial businesses and the expansion of existing industrial business. The available land is primed for immediate development, including the property located along Skinner Drive. This parcel, completely within TIFA, is zoned solely for industrial use and provides ample opportunity for future development. Financial Runoff: Allowing for the development and expansion of industrial business ultimately serves to benefit the community at large. Increased industrial business activity means a greater number of people in the city that shop, eat and spend a portion of their disposable income. This revenue generation may ultimately lead to increasing attracting new residents and visitors, increasing the variety of retail and commercial businesses and improving the quality of services offered.

Richmond's industrial district houses several vacant properties. It is in the best interests of TIFA to use this available land to its distinct advantage. Because of these vacancies, the City is able to market itself to potential industrial business owners. The city has a substantial amount of industrial property (32 acres) that TIFA should advertise and incentivize to potential developers and investors appropriately.

Industrial districts are often located in the outer boundaries of a city in order to ensure a proper distance from residential and commercial districts.

There are many opportunities for improvement in this district, including 32 acres of industrial zoned property primed for development. A strong focus on marketing of these sites, as well as investing in infrastructure improvements will help promote revitalization throughout this district.

### ***Public & Semi-Public (Trailside & Parks District)***

The City of Richmond TIFA is a terminus for the Macomb Orchard Trail. This 24-mile non-motorized trail traverses 7 northern Macomb County communities, and connects to other regional and local trail systems. Since its inception, Richmond has embraced the Macomb Orchard Trail by investing in capital projects. One of the most notable investments was the creation of the Trailhead Park at the intersection of the trail, Division Road and Main Street. This recreational area and community gathering place is a prime example of the transformative opportunities associated with the having a major non-motorized asset in the community. The Trailside Area is comprised of the properties surrounding the Macomb Orchard Trail. This area of the TIFA District is occupied by a number of different land uses including single-family residential, multi-family residential, industrial and public uses. With the trail now entrenched in the district the community is committed to optimizing development in this area. The Trailside area is a key gateway for the City of Richmond, and TIFA can play an integral role in improving its aesthetics and functionality. TIFA's Recreational area is centered on Beebe Street Memorial Park and Bailey Park. This gathering place, located in the northern portion of the TIFA district, provides residents and visitors with staging area for major community events, recreational programs and historical gatherings. Beebe Street Memorial Park is the City's largest park. It is home to the Richmond Area Good Old Days Festival grounds, Richmond Little League, the city pool, playgrounds, a skate park and walking paths. Bailey Park is home to the Richmond Area Historical and Genealogy Society Historic Village, which houses a cluster of historic structures from the City of Richmond. The Recreational area is a sanctuary for the TIFA district. Users can engage in both passive and active recreational offerings in a safe public setting that showcases the City's natural beauty. This key community gathering place is an incredible asset for the district.

Richmond's parks and trails draw visitors from around the region and a continued focus on maintenance and new facilities will only make the district more successful. A specific focus should be placed on improved signage, ADA accessibility at all Richmond facilities and new facilities that will benefit residents and visitors while also acting as future revenue sources, such as larger pavilions or a portable stage for events.

### ***School and Neighborhood Area***

The School and Neighborhood areas are scattered throughout the TIFA district. These areas are characterized by strong residential neighborhoods and the presence of Richmond Community Schools. The mixture of assorted residential housing options situated in close proximity to educational facilities, is a perfect environment for community vitality and social interaction. The

residential neighborhoods are home to a core group of TIFA users. With close proximity to all of TIFA's assets these individuals have a greater likelihood to frequent local businesses, attend a community event, and engage in school activities. A strong residential housing stock coupled with an active community school district can undoubtedly lead to more activity and interest in the City of Richmond.

Richmond's schools and neighborhood district has many strengths that make it uniquely successful. There is a steady population base and the school district is engaged in the community. The district is fairly walkable and has a variety of housing options, including single family, multi-family, apartments and townhomes. Additionally, many of the homes in the district are historical, bringing character and a sense of place to the community.

There are of course opportunities for improvement. Many of the historic properties have not been properly maintained and have become victims of blight. Lighting throughout the district is relatively poor and sidewalks and other infrastructure is in need of improvement. A focus on better pedestrian links to parks and blight removal should continue to be a focus of the TIFA board.

## **TAX INCREMENT FINANCING PLAN**

Tax increment financing is an effective financing tool for the redevelopment of designated development areas within a District. Tax increment financing is the process of expending new property tax dollars for improvements that generally benefit the source of the taxes. Tax dollars generated from new private property developments and from improvements and to existing private property within a designated development area are "captured" and utilized by the TIFA to finance public improvements within the development area. This process supports and encourages continued private investment.

"Captured Assessed Value" is defined in the Act as the amount, in any one year, by which the current assessed value of the development area exceeds the initial assessed value. "Initial Assessed Value" is defined as the most recently assessed value, as finally equalized by the State Board of Equalization, of all the taxable property within the boundaries of the development area at the time the ordinance establishing the tax increment financing plan is approved. In the case of a change in the boundaries or a development area, the initial assessed value of those properties added is based upon the SEV in effect at the time of change. Unaffected properties maintain the same initial assessed valuation as originally determined. Properties deleted from a development area have the appropriate initial assessed valuation removed from the TIFA base.

**Table 1**, which follows, indicates the sources of income available to the City of Richmond TIFA to pay the costs of the development plan and the estimated amounts of each source for the next 20 years, based on taxable value and captured assessed value of real and personal property within the Development Area, assuming annual growth in the Development Area of 2 % on real and personal property.

<b>Tax Increment Revenue Projections</b>				
<b>Year</b>	<b>Current Taxable Value</b>	<b>Captured Taxable Value</b>	<b>Aggregate Millage Levied</b>	<b>Tax Increment Revenue</b>
2019	\$43,945,105.00	\$34,882,198.00	22.131	\$771,977.92
2020	\$44,824,007.10	\$35,761,100.10	22.131	\$791,428.91
2021	\$45,720,487.24	\$36,657,580.24	22.131	\$811,268.91
2022	\$46,634,896.99	\$37,571,989.99	22.131	\$831,505.71
2023	\$47,567,594.93	\$38,504,687.93	22.131	\$852,147.25
2024	\$48,518,946.83	\$39,456,039.83	22.131	\$873,201.62
2025	\$49,489,325.76	\$40,426,418.76	22.131	\$894,677.07
2026	\$50,479,112.28	\$41,416,205.28	22.131	\$916,582.04
2027	\$51,488,694.52	\$42,425,787.52	22.131	\$938,925.10
2028	\$52,518,468.41	\$43,455,561.41	22.131	\$961,715.03
2029	\$53,568,837.78	\$44,505,930.78	22.131	\$984,960.75
2030	\$54,640,214.54	\$45,577,307.54	22.131	\$1,008,671.39
2031	\$55,733,018.83	\$46,670,111.83	22.131	\$1,032,856.24
2032	\$56,847,679.20	\$47,784,772.20	22.131	\$1,057,524.79
2033	\$57,984,632.79	\$48,921,725.79	22.131	\$1,082,686.71
2034	\$59,144,325.44	\$50,081,418.44	22.131	\$1,108,351.87

2035	\$60,327,211.95	\$51,264,304.95	22.131	\$1,134,530.33
2036	\$61,533,756.19	\$52,470,849.19	22.131	\$1,161,232.36
2037	\$62,764,431.32	\$53,701,524.32	22.131	\$1,188,468.43
2038	\$64,019,719.94	\$54,956,812.94	22.131	\$1,216,249.23

*(See Appendix F for a listing of each taxing authority separately)*

The actual dollars collected by the taxing jurisdictions vary significantly from year to year. The funds will be based upon an annual levy approved by the governing body of each unit. The estimates of taxes to be captured in this report are based upon the difference between the 1984 SEV Base and the 2019 SEV and the tax rates levied by the taxing units. The applicable millage rates are summarized below. Since the millage rate will vary each year according to the annual approved rates, these rates should be considered illustrative only and not considered firm rates.

<b>Captured Revenues</b>	<b>Millage Rate</b>
City Operating	16.2187
Macomb Community College	1.4531
Macomb County	4.4592
<b>Total Levy</b>	<b>22.131</b>

## **PLANS FOR EXPENDITURE AND PROJECT LIST**

The TIFA Board anticipates completing projects on a “pay-as-you-go” basis, committing funds only as dollars become available. Below is a list of projects and programming that the TIFA Board has deemed important to complete throughout the duration of the TIFA program. Priority projects are underlined and will be completed as funds become available.

### ***General TIFA Administrative Needs:***

- Website promotion and education; promoting the TIFA Programs and educating why TIFA is important and what the board accomplishes
- Developing and executing a comprehensive marketing and branding strategy for the two traditional downtown areas within the TIFA District

- Underutilized property analysis (develop a better understanding of vacancy rates and how to successfully market these properties)
- Grant writing – consider hiring a grant writer to assist with various funding opportunities
- Strengthening stakeholder relationships with chambers of commerce, businesses and civic groups
- Technology advancements including wireless internet and telecommunications
- Purchase new property – purchase of additional property for parking lots and/or park land

### **Character Area Priority 5-year projects:**

#### **1. Main Street**

- a. Continue and enhance the Façade Program:
  - i. Focus on improvements to the rear entrances of businesses, including parking lots
  - ii. Promote green building techniques –connect property owners with architects that can help preserve historic buildings building and while also making their buildings more sustainable (public/private partnerships to maintain buildings)
- b. Sidewalk improvements throughout the district
- c. Install poles for cross-road banners
- d. Install decorative lights across Main Street that can remain on throughout the year
- e. Purchase Holiday Decorations for every season
- f. Replace street light poles within the traditional downtown areas, consider using something other than the standard Edison poles
- g. Consolidated dumpster areas within the downtown district and/or a more aesthetically pleasing trash management system
- h. Utility relocation along the rear of the businesses
- i. Research private/public parking improvements. In particular the area from Water to Monroe on the east side of Main Street
- j. Look at cost estimate for parking improvements in the downtown
- k. Develop a program to promote murals on the side of the buildings
- l. Purchase and install a community events sign. This would inform the community about events and other happenings in Richmond
- m. Promote statues and/or sculptures throughout the downtown area
- n. Plan concerts or events specifically in downtown. This has the potential to further promote the restaurants and shops
- o. Purchase a portable stage for downtown events
- p. Four corner improvements (intersection of Main and Division)

## 2. Industrial

- a. Market the vacant industrial properties (there are 32 acres ready for new development)
- b. Cross-road banner poles for Division Street
- c. Maintenance of city facilities and purchase of new equipment
- d. Fencing around Beebe Park and Baseball Facilities (industrial property abutting – Master’s Machine)

## 3. Trailside

- a. Plan for future Macomb Orchard Trail expansion east (Bridge-Bay trail connector) and amenities. This section of trail is also a link for the Great Lake to Lake Trail Route 1 from South Haven to Port Huron
- b. Cross-road banner poles for Division Road and possibly Main Street (M-19)
- c. General improvements to “grass circle” and Trailhead Park. These improvements may include a water feature or some type of public art
- d. Improve the tree plantings or other vegetation that would successfully screen adjacent parking lot within the Trailhead Park
- e. Macomb Orchard Trail bathroom maintenance

## 4. Parks and Recreation

- a. Install a splash pad in Beebe Street Park
- b. Extending the electricity to Beebe Park Diamond C for lighting on-field
- c. Renovate the dugouts on Diamond C to match other dugouts
- d. Add an additional small pavilion by the community center (current pavilion is rented out every week in the summer). Exact location TBD
- e. Add a restroom to Bailey Park
- f. Schedule more frequent updates and improvements to play structures at City parks. Consider different styles of structures that target various age groups
- f. Assist the recreation department with the implementation of City’s 5-Year Parks and Recreation Master Plan
- g. Potential multi-use Pavilion where “beer tent” sits during Richmond Good Old Days Festival. Currently, the Festival pays a yearly rental fee for a large tent of roughly \$8,000 May work with the Festival on financing the large pavilion
- h. Develop an ice rink as part of large pavilion. If no pavilion, then consider a stand-alone ice rink facility
- i. Parking improvements at Bailey Park. Paving and striping the existing limestone parking areas and research an expansion of the parking located along Stone Street

- j. Assistance to implement of the Richmond Area Historical and Genealogical Society's 5-year plan
- k. Research potential for a camp site
- l. Continue to improve ADA accessibility at parks and throughout the district
- m. Festival and event improvements and enhancements
- n. Amphitheater or some type of stage within the TIFA district. Potentially coupled with the restroom renovations in Beebe Park

### **5. School and Neighborhood**

- a. Contribution to the street improvement program
- b. Sidewalk improvements within the TIFA (Similar to the SWIP program, TIFA would provide 50% match, residents provide the other 50%)
- c. Library expansion (renovations + improved parking)
- d. Cross-road banner poles for Division Street
- e. Residential improvements – consider a fund to enhance residential character (this would fund rehabilitation of historical homes in the community. The program would be income-based with a focus on houses on Main Street)
- f. Improved street lighting. Extend the Streetscape lighting one block behind the traditional downtown areas

## **EXCERPTS FROM TIFA LEGISLATION**

- **125.1813 Preparation and submission of tax increment financing plan; contents and approval of plan; public hearing; taxing jurisdictions.**
  - Sec. 13.
  - (1) When the authority determines that it is necessary for the achievement of the purposes of this act, the authority shall prepare and submit a tax increment financing plan to the governing body. The plan shall be in compliance with section 14 and shall include a development plan as provided in section 16. The plan shall also contain the following:
    - (a) A statement of the reasons that the plan will result in the development of captured assessed value that could not otherwise be expected. The reasons may include, but are not limited to, activities of the municipality, authority, or others undertaken before formulation or adoption of the plan in reasonable anticipation that the objectives of the plan would be achieved by some means.
    - (b) An estimate of the captured assessed value for each year of the plan. The plan may provide for the use of part or all of the captured assessed value, but the portion intended to be used shall be clearly stated in the plan. The authority or municipality may exclude from captured assessed value growth in property value resulting solely from inflation. The plan shall set forth the method for

excluding growth in property value resulting solely from inflation. The percentage of taxes levied for school operating purposes that is captured and used by the plan shall not be greater than the plan's percentage capture and use of taxes levied by a municipality or county for operating purposes. For purposes of the previous sentence, taxes levied by a county for operating purposes include only millage allocated for county or charter county purposes under the property tax limitation act, Act No. 62 of the Public Acts of 1933, being sections 211.201 to 211.217a of the Michigan Compiled Laws. This limitation does not apply to the portion of the captured assessed value shared pursuant to an agreement entered into before 1989 with a county or with a city in which an enterprise zone is approved under section 13 of the enterprise zone act, Act No. 224 of the Public Acts of 1985, being section 125.2113 of the Michigan Compiled Laws.

- c) The estimated tax increment revenues for each year of the plan.
- (d) A detailed explanation of the tax increment procedure.
- (e) The maximum amount of bonded indebtedness to be incurred.
- (f) The amount of operating and planning expenditures of the authority and municipality, the amount of advances extended by or indebtedness incurred by the municipality, and the amount of advances by others to be repaid from tax increment revenues.
- (g) The costs of the plan anticipated to be paid from tax increment revenues as received.
- (h) The duration of the development plan and the tax increment plan.
- (i) An estimate of the impact of tax increment financing on the revenues of all taxing jurisdictions in which the development area is located.
- (2) Approval of the tax increment financing plan shall be in accordance with the notice, hearing, disclosure, and approval provisions of sections 17 and 18. When the development plan is part of the tax increment financing plan, only 1 hearing and approval procedure is required for the 2 plans together.
- (3) Before the public hearing on the tax increment financing plan, the governing body shall provide a reasonable opportunity to the taxing jurisdictions in which the development is located to express their views and recommendations regarding the tax increment financing plan. The authority shall fully inform the taxing jurisdictions about the fiscal and economic implications of the proposed tax increment financing plan. The taxing jurisdictions may present their recommendations at the public hearing on the tax increment financing plan. The authority may enter into agreements with the taxing jurisdictions and the governing body of the municipality in which the development area is located to share a portion of the captured assessed value of the district.
- **125.1814 Transmitting and expending tax increment revenues; disposition of surplus funds; abolition of tax increment financing plan; financial report.**
  - Sec. 14.
  - (1) The municipal and county treasurers shall transmit to the authority tax increment revenues.

- (2) The authority shall expend the tax increment revenues received for the development program only in accordance with the tax increment financing plan. Surplus funds may be retained by the authority for the payment of the principal of and interest on outstanding tax increment bonds or for other purposes that, by resolution of the board, are determined to further the development program. Any surplus funds not so used shall revert proportionately to the respective taxing bodies. These revenues shall not be used to circumvent existing property tax laws or a local charter that provides a maximum authorized rate for levy of property taxes. The governing body may abolish the tax increment financing plan when it finds that the purposes for which the plan was established are accomplished. However, the tax increment finance plan shall not be abolished until the principal of and interest on bonds issued pursuant to section 15 have been paid or funds sufficient to make the payment have been segregated.
- (3) The authority shall submit annually to the governing body and the state tax commission a financial report on the status of the tax increment financing plan. The report shall include the following:
  - (a) The amount and source of tax increments received.
  - (b) The amount in any bond reserve account.
  - (c) The amount and purpose of expenditures of tax increment revenues.
  - (d) The amount of principal and interest on any outstanding bonded indebtedness.
  - (e) The initial assessed value of the development area.
  - (f) The captured assessed value retained by the authority.
  - (g) The number of jobs created as a result of the implementation of the tax increment financing plan.
  - (h) Any additional information the governing body or the state tax commission considers necessary.
- **125.1816 Development plan; preparation; contents.**
  - Sec. 16.
  - (1) When a board decides to finance a project in a development area pursuant to this act, it shall prepare a development plan.
  - (2) To the extent necessary to accomplish the proposed development program the development plan shall contain:
    - **(a) The designation of boundaries of the development area in relation to the boundaries of the authority district and any other development areas within the authority district.**
    - **(b) The designation of boundaries of the development area in relation to highways, streets, or otherwise.**

- **(c) The location and extent of existing streets and other public facilities within the development area and the location, character, and extent of the categories of public and private land uses then existing and proposed for the development area, including residential, recreational, commercial, industrial, educational, and other uses and shall include a legal description of the development area.**
- (d) A description of improvements to be made in the development area, a description of any repairs and alterations necessary to make those improvements, and an estimate of the time required for completion of the improvements.
- (e) The location, extent, character, and estimated cost of the improvements including rehabilitation contemplated for the development area and an estimate of the time required for completion.
- (f) A statement of the construction or stages of construction planned, and the estimated time of completion of each stage.
- (g) A description of any parts of the development area to be left as open space and the use contemplated for the space.
- (h) A description of any portions of the development area which the authority desires to sell, donate, exchange, or lease to or from the municipality and the proposed terms.
- (i) A description of desired zoning changes and changes in streets, street levels, intersections, and utilities.
- (j) An estimate of the cost of the development, a statement of the proposed method of financing the development, and the ability of the authority to arrange the financing.
- (k) Designation of the person or persons, natural or corporate, to whom all or a portion of the development is to be leased, sold, or conveyed and for whose benefit the project is being undertaken, if that information is available to the authority.
- (l) The procedures for bidding for the leasing, purchasing, or conveying of all or a portion of the development upon its completion, if there is no express or implied agreement between the authority and persons, natural or corporate, that all or a portion of the development will be leased, sold, or conveyed to those persons.
- (m) Estimates of the number of persons residing in the development area and the number of families and individuals to be displaced. If occupied residences are designated for acquisition and clearance by the authority, a development plan shall include a survey of the families and individuals to be displaced, including their income and racial composition, a statistical description of the housing supply in the community, including the number of private and public units in existence or under construction, the condition of those in existence, the number of owner-occupied and renter-occupied units, the annual rate of turnover of the various types of housing and the range of rents and sale prices, an estimate of the total demand for housing in the community, and the

estimated capacity of private and public housing available to displaced families and individuals.

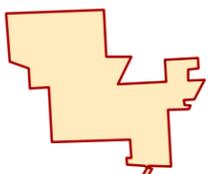

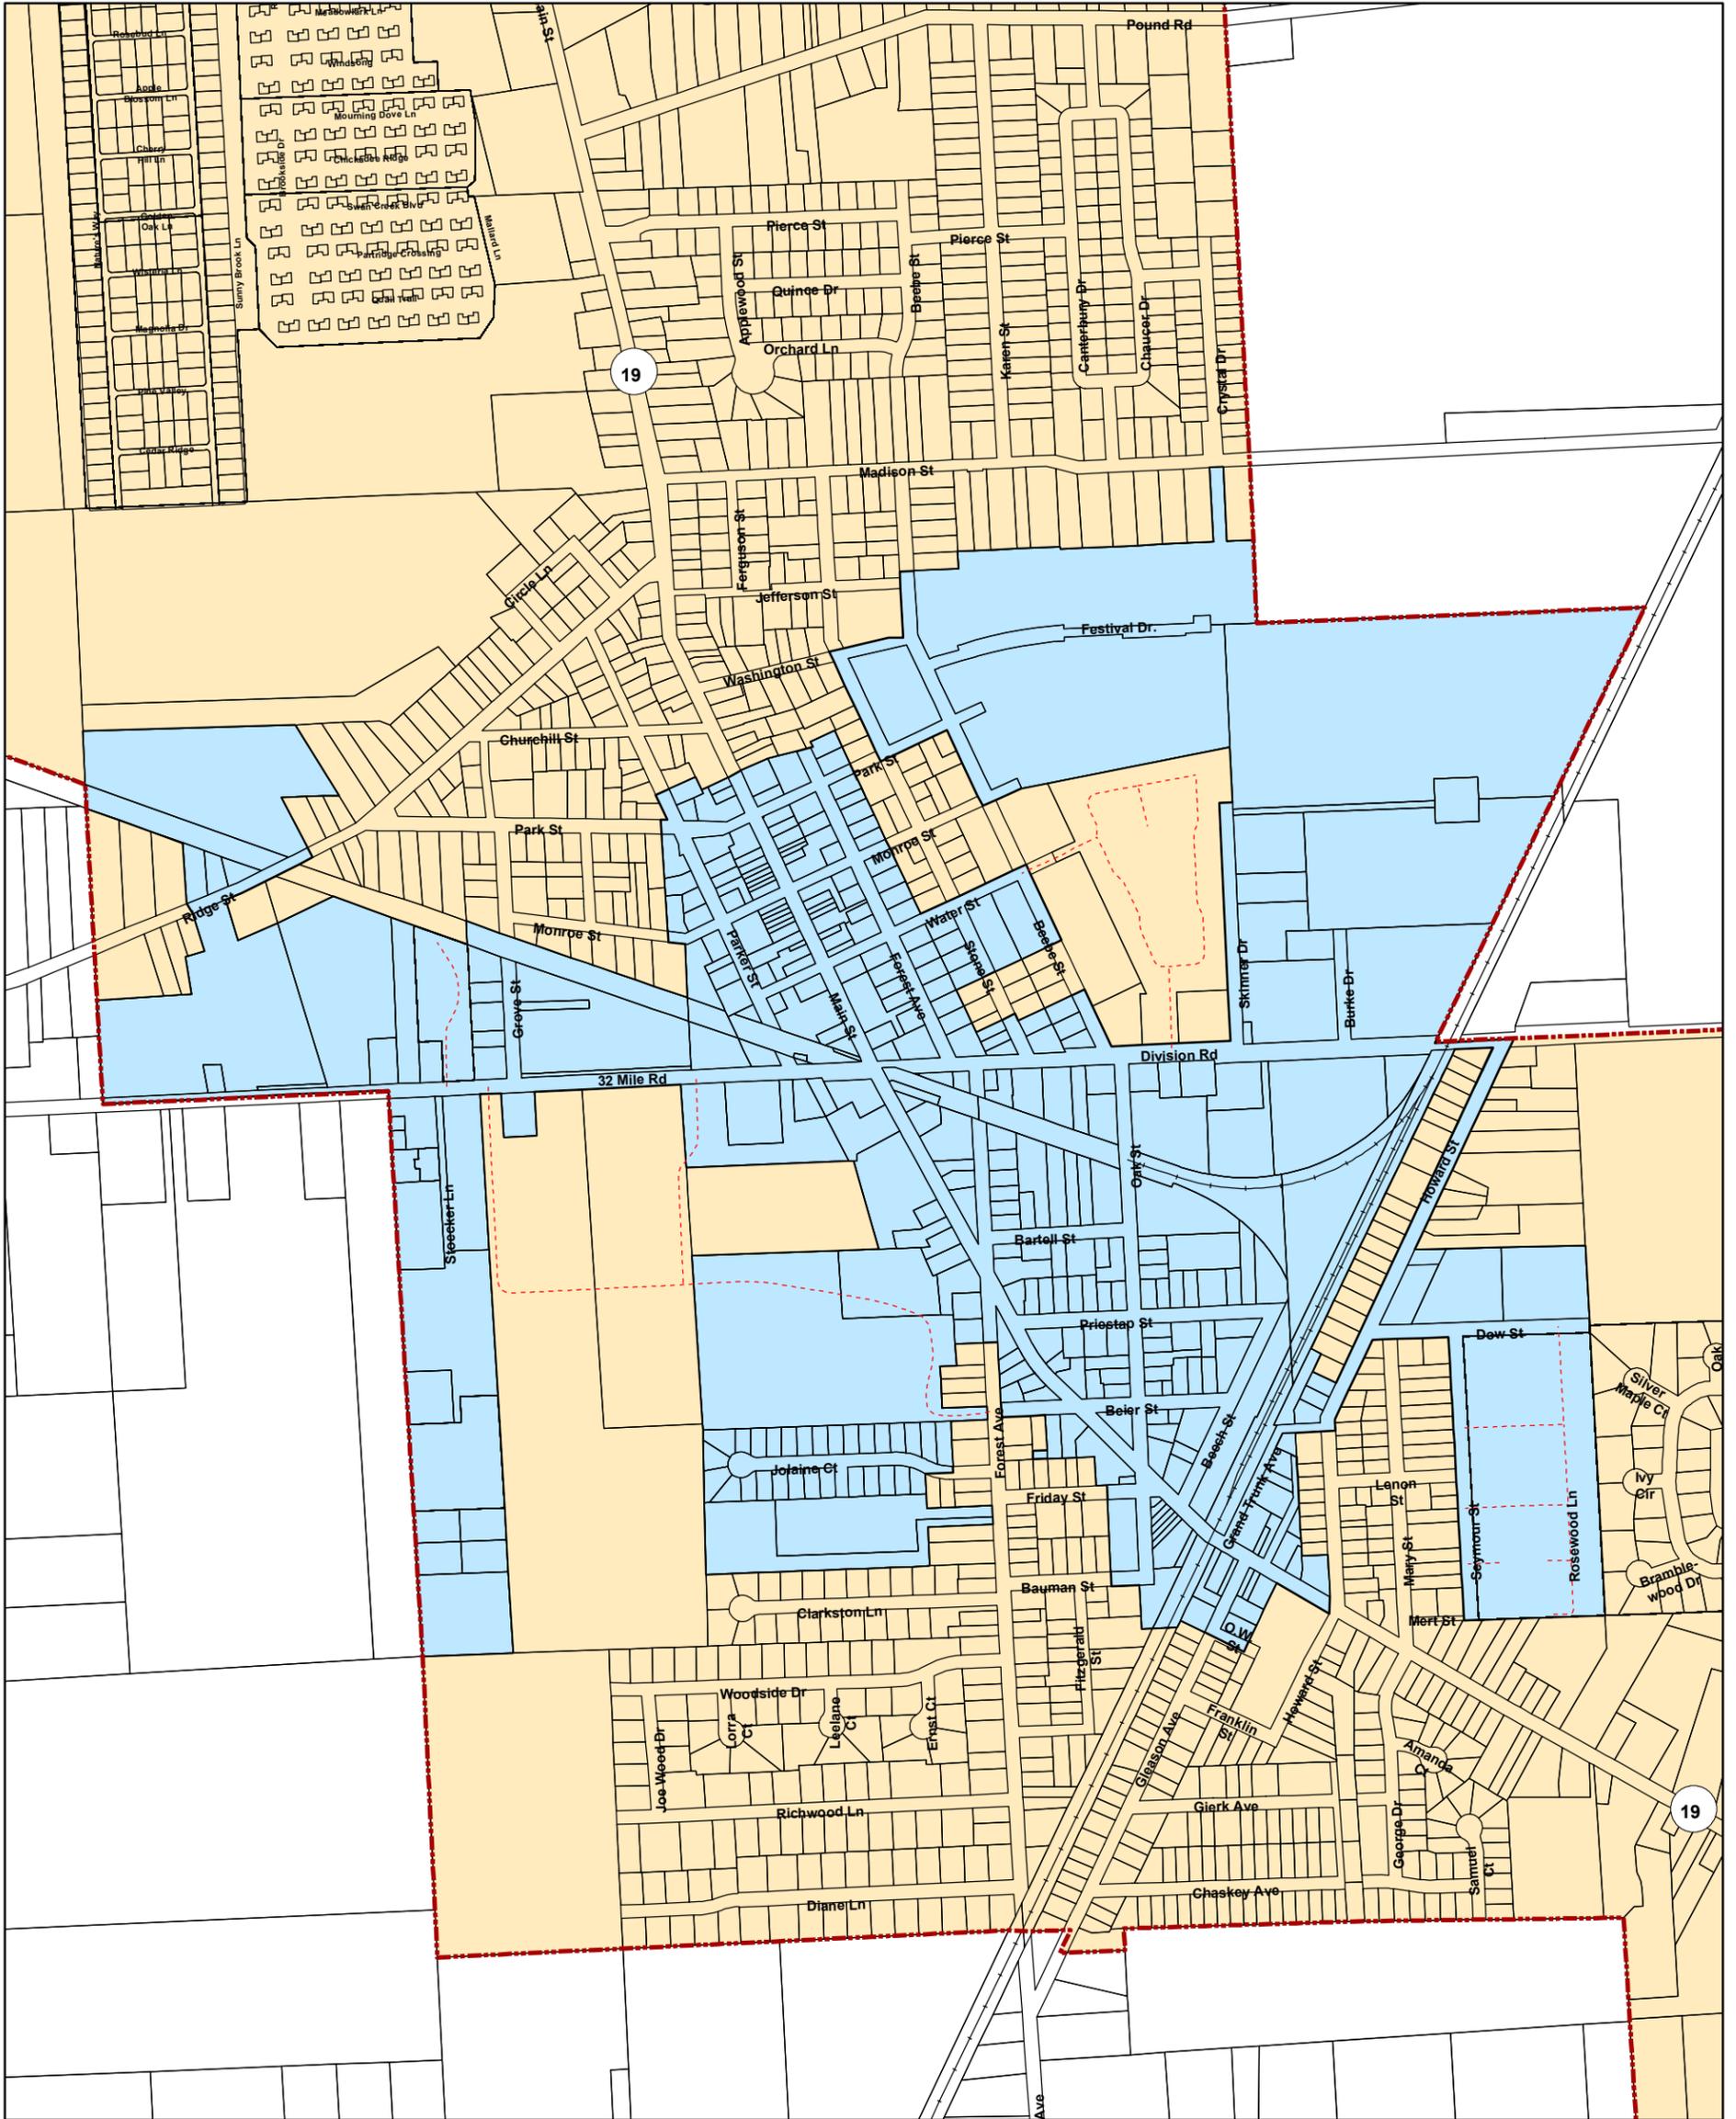

- (n) A plan for establishing priority for the relocation of persons displaced by the development in any new housing in the development area.
- (o) Provision for the costs of relocating persons displaced by the development, and financial assistance and reimbursement of expenses, including litigation expenses and expenses incident to the transfer of title, in accordance with the standards and provisions of the federal uniform relocation assistance and real property acquisition policies act of 1970, 42 U.S.C. 4601 to 4655.
- (p) A plan for compliance with Act No. 227 of the Public Acts of 1972, being sections 213.321 to 213.332 of the Michigan Compiled Laws.
- (q) Other material which the authority, local public agency, or governing body considers pertinent.
- (3) It shall not be necessary for the board to prepare a development plan pursuant to this section where a development plan that adequately provides for accomplishing the proposed development program has already been prepared by any of the organizations described in section 4(1)(a) to (d) and where the development plan has been approved by the board and governing body pursuant to sections 17 and 18.
- **125.1817 Public hearing on development plan; publication, mailing, and contents of notice; presentation of data; record.**
  - Sec. 17.
  - (1) The governing body, before adoption of a resolution approving or amending a development plan or approving or amending a tax increment financing plan, shall hold a public hearing on the development plan. Notice of the time and place of the hearing shall be given by publication twice in a newspaper of general circulation designated by the municipality, the first of which shall not be less than 20 days before the date set for the hearing. Notice shall also be mailed to all property taxpayers of record in the development area not less than 20 days before the hearing. Beginning June 1, 2005, the notice of hearing within the time frame described in this subsection shall be mailed by certified mail to the governing body of each taxing jurisdiction levying taxes that would be subject to capture if the development plan or the tax increment financing plan is approved or amended.
  - (2) Notice of the time and place of hearing on a development plan shall contain the following:
    - (a) A description of the proposed development area in relation to highways, streets, streams, or otherwise.
    - (b) A statement that maps, plats, and a description of the development plan, including the method of relocating families and individuals who may be displaced from the area, are available for public inspection at a place designated in the notice, and that all aspects of the development plan will be open for discussion at the public hearing.
    - (c) Other information that the governing body considers appropriate.

- (3) At the time set for hearing, the governing body shall provide an opportunity for interested persons to be heard and shall receive and consider communications in writing with reference thereto. The hearing shall provide the fullest opportunity for expression of opinion, for argument on the merits, and for introduction of documentary evidence pertinent to the development plan. The governing body shall make and preserve a record of the public hearing, including all data presented at that time.
- **125.1818 Development plan or tax increment plan as public purpose; determination; approval or rejection of plan; notice and public hearing; conclusiveness of procedure, adequacy of notice, and certain findings; validation and conclusiveness of plan; contesting plan.**
  - Sec. 18.
  - (1) The governing body, after a public hearing on the development plan or the tax increment financing plan, or both, with notice of the hearing given pursuant to section 17, shall determine whether the development plan or tax increment financing plan constitutes a public purpose. If the governing body determines that the development plan or tax increment financing plan constitutes a public purpose, the governing body shall then approve or reject the plan, or approve it with modification, by resolution based on the following considerations:
    - (a) The findings and recommendations of a development area citizens council, if a development area citizens council was formed.
    - (b) Whether the development plan meets the requirements set forth in section 16(2) and the tax increment financing plan meets the requirements set forth in section 13(1).
    - (c) Whether the proposed method of financing the development is feasible and the authority has the ability to arrange the financing.
    - (d) Whether the development is reasonable and necessary to carry out the purposes of this act.
    - (e) Whether the amount of captured assessed value estimated to result from adoption of the plan is reasonable.
    - (f) Whether the land to be acquired within the development area is reasonably necessary to carry out the purposes of the plan and the purposes of this act.
    - (g) Whether the development plan is in reasonable accord with the approved master plan of the municipality, if an approved master plan exists.
    - (h) Whether public services, such as fire and police protection and utilities, are or will be adequate to service the development area.
    - (i) Whether changes in zoning, streets, street levels, intersections, and utilities are reasonably necessary for the project and for the municipality.

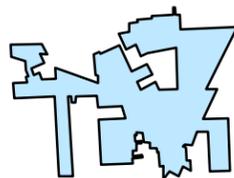

- (2) Except as provided in this subsection, amendments to an approved development plan or tax increment plan must be submitted by the authority to the governing body for approval or rejection following the same notice and public hearing provisions that are necessary for approval or rejection of the original plan. Notice and hearing shall not be necessary for revisions in the estimates of captured assessed value and tax increment revenues.
- (3) The procedure, adequacy of notice, and findings with respect to purpose and captured assessed value shall be conclusive unless contested in a court of competent jurisdiction within 60 days after adoption of the resolution adopting the plan. A plan adopted before July 18, 1983 is validated and shall be conclusive unless contested in a court of competent jurisdiction within 60 days after July 18, 1983. A plan in effect before July 18, 1983 shall not be contested to the extent that tax increment revenues are necessary for the payment of principal and interest on outstanding bonds issued pursuant to the plan and payable from the tax increment revenues or to the extent the authority or municipality has incurred other obligations or made commitments dependent upon tax increment revenues.
