

THANK YOU FOR VISITING!

Why bring a Fiber Festival to the Historic buildings in Richmond Michigan? We thought others in our community would benefit from the history, knowledge and joy gained by learning about fiber arts. Those thoughts blossomed into the idea of a Festival of Fibers to celebrate and showcase those benefits.

This being our first year, we decided to concentrate on demonstrations including: spinning, weaving, crocheting/knitting as well a brief history of how fiber is prepared and how the industry has changed over the past 100 years. What better place to talk about history than the historic buildings in Richmond Michigan?! We hope you enjoy our first festival as much as we did!

Sincerely,
Audrey Goetzinger
